### Camera and Alarm System Requirements

Date Issued: June 3, 2024

The South Dakota Medical Cannabis Program (SDMCP) has seen an increase in the number of current alarm and video surveillance systems that do not meet the criteria required in ARSD [44:90:04:08](#) and [44:90:04:10](#). One specific alarm and surveillance system provider that does **not** meet state requirements is the “Ring” camera system.

This message is being sent as a proactive step to notify all establishments to verify that their video surveillance and alarm systems are compliant with the administrative rules cited above. Video surveillance and alarm systems not compliant with administrative rules will not be accepted during any application review and are subject to citations during inspections. This may also result in a delayed certificate issuance until the video surveillance and alarm systems are in compliance.

Thank you in advance for your cooperation.

Regards,

Emily J. Kerr | Medical Cannabis Program Administrator
